POWERWALL

Powerwall is a home battery system that turns your home's solar panels into an all day resource – increasing self-consumption of solar – while also offering backup in the event of an outage. The Powerwall enables more of your home's electricity use to come from solar, which enhances solar functionality, and reduces energy costs.

Join the Energy Revolution

Store

Unused solar is stored in
Powerwall instead of going to
the grid

Power

Your home is powered by solar
24/7 and can even go off grid

Control

Stay connected and control your
home energy use with the Tesla
app

Protect

Your home is protected during a
power outage
